

# Your first stop for a second chance

National Foundation  
for Transplants

# You are not alone

As a transplant patient, **you are part of a community — more than 4,000 patients strong** — that relies on National Foundation for Transplants every year to give support in covering the high cost of organ transplantation. Like each of your fellow patients, you will be provided with an NFT Fundraising Consultant. Your consultant will assist you in **connecting with other community resources and organizing fundraising campaigns** to meet your transplant needs. **When we say we are here for you, we mean it.**

**97%**

of all donations can  
be used to pay for  
transplant-related  
expenses

# Freeing you from financial stress so you can focus on your health

When it comes to dealing with the most important issue — your health — the last thing you need is more financial stress. You'll be pleased to know that our grants to you are not counted as income, nor are they taxable. This is also important to those who may donate in honor of you because contributions to NFT can be tax-deductible. What's more, their donations do not minimize or jeopardize your Medicaid/Medicare benefits in any way.

## We want to make sure that you're covered

Your Fundraising Consultant will help assess your financial needs, the expenses you will likely face and work with you on funding expenses for the following:

- ✓ Hospital bills and co-pays
- ✓ Pharmacy costs
- ✓ Insurance premiums
- ✓ Patient and caregiver travel, food and lodging
- ✓ Lost wages for Living Donor
- ✓ Post-transplant medical expenses for Living Donors
- ✓ Living Donor travel assistance

**Financial Assistance received from us can be used to help meet financial requirements for initial placement on the organ transplant waiting list**

# You can have financial stability

We assist with setting up personal fundraising events and provide outreach to create awareness of your condition to raise funds from those in your community. We can also provide you with financial support via direct payment or reimbursement. When you review how our fundraising platform compares with GoFundMe, you'll see why so many patients and their families choose us.
